WHERE ELEGANCE MEETS DESIGN

ELIE SAAB and the Italian design brand IMPATIA unveil a new collaboration, marking a natural extension of the House’s vision into the world of lifestyle and interiors. Rooted in a shared dedication to craftsmanship, innovation, and timeless aesthetics, this partnership reimagines the classic billiard table as a sophisticated design statement.

The table features a sculptural structure where transparent architectural elements create lightness and balance. A dark bronze metal frame, crafted by master artisans, is paired with ribbed bronze-toned glass panels for strength and visual refinement. A textured band of fine Italian leather adds a tactile dimension, while rail tops in Patagonia marble -curated by Elie Saab- reveal unique crystalline patterns, highlighting the piece’s distinctive elegance.
